

A stylized landscape illustration featuring rolling green hills in the foreground, a small green tree and a purple flower on a hill to the left, and a red bird flying in the sky. The background consists of layered blue and white waves representing the sky. The title 'Yummy Yummy' is written in a large, cursive, yellow and orange font across the center.

Yummy Yummy

Yummy Crummy

- Provides convenient, user-friendly mobile application for users to keep track of their family's dish preferences at different restaurants
- Records restaurant, dish, rating, and additional notes for each profile
- Can be used by people of all ages, backgrounds, ethnicities, and education levels

What's Changed

- *Internal vs External Data Storage*
- *Account and Profile Organization*
- *Yelp Integration*

*Please turn your attention to the
application demonstration*

Lessons Learned

- Don't Underestimate the Learning Curve
 - Android development process
 - Android Studio
 - Git/GitHub
 - SQLite Database
 - HTML
 - Genymotion
 - Visual Paradigm
 - Phone Developer Options
 - Computers

- Share the Wealth
- Don't Be a 'Jack of All Trades'
- Think Twice Before You Jump
- Question Everything

Future Goals

- *Store Data on a Server*
 - *Allow for aggregation of user ratings and reviews*
 - *Eliminates need for internal storage*
 - *Will increase scalability*
- *Optimize User Interface and Design Flow*
 - *Enhance user experience*
- *Add Facebook login*
 - *Increase ease of use*

*Yummy
Crummy*
